EDUCATION

Full Stack Web Development Program

MICROVERSE, San Francisco, CA (Remote)

September 2022 - October 2023

- Completed over 1300 hours of intensive training in advanced web development concepts, including algorithms, data structures, and full-stack development.

- Proficiently applied remote pair-programming techniques using Git and GitHub for seamless collaboration with international developers.

- Successfully executed projects using Ruby, Rails, JavaScript, React, and Redux.

Computer Software Engineering, Diploma

IPMC University College

April 2021 - May 2022

SOME PROJECTS

Verdure

Saphena's

Snapbudget

Shop With Adun

World Metrics Database

SUMMARY

Dedicated full-stack web developer with a focus on front-end development.

A US citizen born in Michigan, currently residing in Lagos, Nigeria, and open to both remote work and relocation.

Eager to bring my expertise in HTML, CSS, JavaScript, and ReactJS to Shure's Global Web Team as a Web Development Intern for the summer of 2024.

EXPERIENCE

STUDENT MENTOR (Volunteer)

April 2023 - August 2023

Microverse, San Francisco, CA (Remote)

- Provided valuable guidance and motivation to new students during their onboarding at Microverse. - Facilitated student success by helping them navigate program requirements and expectations. - Developed personalized learning plans tailored to individual strengths and weaknesses. - Fostered a supportive environment and offered ongoing encouragement to ensure student progress.
